## BONDING

Stephanie Meyer's *The Host* gets a rom-com twist in this sci-fi romantic comedy set in a world where people wear their anxiety on their chests in the form of a parasite that shows everyone just what you're feeling on the inside.

Marcus has felt alone since the loss of his sister and has just recently entered into the dating scene, while Laura has drifted in and out of relationships since high school. They meet, they have a first date, and Marcus almost dies—because the slug-like, alien parasite attached to his chest rejects the alien parasite attached to Laura's chest.

But Marcus and Laura can't ignore their attraction to each other and must find a way to make their relationship work, hopefully without putting either one of them in the emergency room.

*Bonding* is a funny, quirky, and honest look at love in a world where everyone wears their anxiety, not on their sleeves, but on their chest like big old leeches.

"Pearson's soft, warmly colored art adds an extra layer of unearthliness to the script's sci-fi and body horror elements. This unexpected mash-up gets at all the ways people find meaning in a life that's not entirely one's own."

—***Publishers Weekly***

"All in all, *Bonding* is an interesting take on what it means to find love in a complicated world full of anxiety-inducing parasites... If you're looking for something different from your typical romance comic book, then give *Bonding: A Love Story About People and Their Parasites* a read—you won't be disappointed!"

"There is a ton of heart in this series, as well as some fantastic, and sometimes bizarre, comedy. This funky scientist-turned-porn-star erotic space adventure is a blast, well written, and easy for someone like myself to get into, despite my initial worries it wouldn't be for me."

—*Wandering Nerd Girl*

"An even mixture of crass humor and meaningful narrative fills the pages of this volume; it is a unique and ultimately enjoyable experience: big alien ball sacks and all."

## GHOSTER HEIGHTS

A haunting and hopeful standalone middle grade graphic novel about a girl learning to move past her grief with help from a friendly ghost. For fans of *Small Spaces* by Katherine Arden and *Ghosts* by Raina Telgemeier.

Eight-year-old Ona has lost just about everything: her home, her possessions, her mother, and almost her life.

When she and her father move into her Baba's apartment complex after these traumatic events, they had hoped for a clean start. But a mysterious specter follows her, and Ona befriends the ghost she discovers haunting the boiler room.

When her new friendship starts allowing her to see other ghosts—the ghosts who haunt the other residents of her building—she decides to use her ability to help her new neighbors face their troubles and free themselves from their specters. In doing so, however, Ona must eventually come face to face with a much darker foe—her own trauma and grief. The earnestness of Judy Bloom meets the raw emotion of Joe Kelly and JM Ken Niimura's *I Kill Giants* in this beautifully hopeful story of childhood tragedy.

"This contemplative story will leave readers with a lot to consider about the difficult emotions in their own lives. The artwork has a soft, rounded style reminiscent of Steven Universe and should attract readers. Reading groups and educators will find a lot of discussion points in this quirky, heartwarming story of love, loss, and acceptance...Hauntingly wonderful."
