## BACKCHANNEL

- Kickstarter raised over \$100,000 USD, over 10 times the initial goal!
- Kickstarter featured in *The Hollywood Reporter*, *Comic Years*, and *Bleeding Cool*

**One of the final projects of the legendary Stan Lee and beautifully illustrated by Spider-Man veteran Andie Tong, about an ordinary high school student who is recruited by a mysterious hacktivist group and discovers a dark secret from his police detective father's past that could change their relationship forever.**

While developing a highly sophisticated AI algorithm, a power awakens within Tom that grants him technopathy, the ability to mentally hack into any device. While initially using this newfound power for personal gain and petty revenge, he learns of a dark secret from his father's past that will change him forever.

In need of a moment of escapism, Tom returns to his favorite digital comics. This time though, the comic is disturbingly on point with what Tom has been experiencing. As he continues to read, Tom realizes that there are encrypted messages in the comic from an unknown ally who clearly knows everything Tom has been up to.

When he discovers that the hacktivist group Backchannel has been tracking him and is aware of his new abilities and reaching out to him for help, Tom is set on a very dangerous path.
